

Defect Closure Report — Phase 2 P0

Audit: Robin Lionstone — RateQuip Phase 2 MVP Core Acceptance Audit **Remediation commit basis:** 0f0280d9d8b8ca95f539b09b41f6e960a1b0b42e **Status:** READY FOR CLIENT UAT

P0-01 — Company submission flow

Field	Detail
-------	--------

|-----|-----|

Original Issue	Add Company journey stopped at Contacts with "Submission not found".
Root Cause	Serverless cold starts / store miss lost the organic-growth draft submission between steps.
Fix Implemented	ensureSubmission upsert recovers drafts across store misses; Continue works; unclaimed draft save when email unknown.
Verification	Acceptance CO-01 recovered submission after store miss; live video 02-add-company-contacts; UAT Step 3.
Evidence	npm run smoke:phase2:acceptance → C0-01; videos/02-add-company-contacts.mp4; videos/uat-full-walkthrough.mp4 (Company section); commit 0f0280d
Status	PASS

P0-02 — Continue / Back / Recovery

Field	Detail
-------	--------

|-----|-----|

Original Issue	Wizard Continue/Back/recovery unreliable after draft loss.
Root Cause	Same draft durability gap as P0-01 plus missing resume UX.
Fix Implemented	Draft recovery + autosave/resume path in organic-growth store/actions; Back navigation preserves recovered submission.
Verification	CO-01 recovery status=contacts_skipped; UAT company create path; video 02.
Evidence	C0-01 evidence; videos/02-add-company-contacts.mp4; screenshots/11-company-add.png; commit 0f0280d
Status	PASS

P0-03 — Own company vs Claim company

Field	Detail
-------	--------

|-----|-----|

Original Issue	Claim / own-company paths incomplete or undemonstrated.
-----------------------	---

Root Cause	Claim + admin moderation not fully wired for acceptance evidence.
Fix Implemented	Claim submit with evidence; admin approve marks company claimed/verified (CO-02).
Verification	CO-02 slug=harbor-heavy-freight verified=true; videos 11 + UAT claim/approve.
Evidence	C0-02; videos/11-company-claim-submit.mp4; videos/20-onboarding-roles.mp4; commit 0f0280d
Status	PASS

P0-04 — Review lifecycle

Field	Detail
-------	--------

|-----|-----|

Original Issue	Reviews reduced to a Write-review link; lifecycle not shown.
Root Cause	Submit/evidence/moderation/response/appeal path incomplete for demo.
Fix Implemented	Full path: submit+evidence → admin approve/reject → supplier response → appeal (REV-01...04).
Verification	REV-01...04 all PASS on 2026-07-30 re-run; videos 06/09/10.
Evidence	REV-01...04; videos/06-reviews-lifecycle.mp4; videos/09-submit-review-with-evidence.mp4; videos/10-admin-moderation-queue.mp4; commit 0f0280d
Status	PASS

P0-05 — RFQ lifecycle

Field	Detail
-------	--------

|-----|-----|

Original Issue	Bad RFQ data accepted; RFQs disappeared; no edit/revise; award/close gaps.
Root Cause	Weak validation; buyer dashboard count without list; missing edit route; owner controls auth gaps.
Fix Implemented	validateRfqContent; buyer RFQ list; /requests/[id]/edit; quote/compare/award; server-side closeOrAward gating.
Verification	RFQ-01...06 PASS; videos 03/04/07/12/13/18/19; Playwright public+API probes.
Evidence	RFQ-01...06; videos/07-create-valid-rfq.mp4; videos/04-rfq-validation-and-edit.mp4; videos/19-award-or-close-rfq.mp4; commit 0f0280d
Status	PASS

P0-06 — RBAC

Field	Detail
-------	--------

|-----|-----|

Original Issue	Signed-out users could see Close RFQ / Mark awarded; role isolation weak.
-----------------------	---

Root Cause	UI not gated by canManage; insufficient server-side requireMutationActor.
Fix Implemented	UI gated; closeOrAwardRequest requires signed-in/demo session; protected routes + API probes.
Verification	AUTH-02 PASS; Playwright 10 protected routes block guests; API refund/procurement/Al/billing cancel reject anonymous; video 01.
Evidence	AUTH-02; playwright-report/ (31 passed); videos/01-signed-out-rfq-controls.mp4; commit 0f0280d
Status	PASS

P0-07 — Database

Field	Detail
-------	--------

|-----|-----|

Original Issue	Database architecture not evidenced (screens ≠ proof).
Root Cause	No migrate/seed/rollback demonstration packaged for audit.
Fix Implemented	Neon dual-path store + uat-db-demo migrate inventory, seed counts, temp change + rollback.
Verification	uat:db READY 6/6 on 2026-07-30T10:40:49.655Z; health.database=true on production.
Evidence	raw/uat-step1-db.json; Database-Evidence.pdf; GET /api/v1/health → database:true; commit 0f0280d
Status	PASS

P0-08 — Billing

Field	Detail
-------	--------

|-----|-----|

Original Issue	Billing looked like a price list only; no credit proof.
Root Cause	Debit/grant/refund/reconcile not demonstrated.
Fix Implemented	Credit debit on RFQ, subscription grant, refund/adjustment, reconcile APIs + billing UI; Stripe Test Mode checkout.
Verification	BILL-01...04 PASS (runtime). Stripe UAT smoke PASS (subscription, webhook grant, pack, RFQ debit, refund, hosted Checkout). Note: production demo wallet showed pre-existing ledger drift (−250) — session net OK; see Defect-Closure Medium item.
Evidence	BILL-01...04; raw/stripe-uat-smoke.txt; videos/05-billing-reconciliation.mp4; videos/14-pricing-and-checkout.mp4; commit 0f0280d
Status	PASS

P0-09 — Evidence pack

Field	Detail
-------	--------

|-----|-----|

Original Issue	Insufficient evidence for Phase 2 acceptance.
Root Cause	Workflows not recorded / automated counter missing / package incomplete.
Fix Implemented	Full UAT walkthrough, 20 clips, acceptance counter, Playwright audit, DB demo, this acceptance-phase2 package.
Verification	This directory docs/acceptance-phase2/ with indexed evidence; 19/19 + 31 Playwright + DB 6/6.
Evidence	Evidence-Index.md; Evidence-Pack.pdf; videos/uat-full-walkthrough.mp4; videos/phase2-acceptance-narrated.mp4; commit 0f0280d
Status	PASS

Medium / Minor remaining

ID	Severity	Issue	Disposition
----	----------	-------	-------------

|----|-----|-----|-----|

M-01	Medium	Production demo wallet ledger drift -250	Documented; session net OK; recommend wallet reset
m-01	Minor	Clerk MFA/verify/reset full E2E challenge	Entry verified; platform-hosted; confirm in Clerk Dashboard

Critical / Major remaining

None from the original P0 set.
